### Response to Amendment

- 1. This action is in response to request for re-consideration filled on 10/15/02.
- Rejected claims 53-55 under 35 U.S.C. § 112 and rejected claims 53-33 under 35 U.S.C.
   § 101 has been withdrawn by the examiner upon submitting clarification by the applicant.
- 3. As per applicant's request claims 53-55 has been considered but they are not persuasive.
- 4. Claims 53-55 stand rejected under 35 U.S.C. 102(b) as being anticipated by *Shackelford* et al US Patent no. 5,265,206 as set fourth in paper no. 6.

In the remark the applicant argues that cited prior art fails to disclose:

I) "The cited reference (Schackelford et al USPN 5,265,206) does not suggest a graphical user interface" as to claims 53-55.

In response to applicant's argument,

I) It was noted that cited reference teaches implementing a messenger and object manger in object oriented programming environment to communicate with other object by passing objects depending on action (see column 2, lines 16) and having graphical user interface also depicted in figure 1, (see column 4, line 5, "a graphical representation..."), therefore, examiner interprets that user interface has been used in order to illustrate graphical representation and within application program in figure 1 also illustrate that user have integrated with the application with

user interface. Therefore, a user interface has been used in order to manipulate or manage the objects. Thus, limitation are met by the reference.

- 6. Claim 58 is rejected under 35 U.S.C. 102(b) as being anticipated by *Shackelford et al* US Patent no. 5,265,206.
